Our Business Idea

We offer to manage passenger transport, on a contractual basis, in an innovative, reliable and cost effective way, to be the best choice for clients, personnel and shareholders.

Our Mission

To provide and promote professional solutions to public transport demands.

Our Vision

Veolia Transport shall be known as the best long term partner who improves mobility and attracts more passengers with services above the expected.

Our Core Values

Responsibility

For our actions, our passengers, our clients, our colleagues, and the future of the group.

Solidarity

By helping our colleagues, the company, the group and following international ethical rules.

Autonomy

The freedom to make decisions and create solutions adapted to the national, regional and local situation

Our Key Success Factors

Moving continuously

We work for each and every individual passenger, not for an anonymous crowd. Our business changes everyday

Surpass the expectations

Only when we are able to provide the services we promise to give, can we surpass expectations. An extra smile can be enough.

International strength and experience

Exchange of knowledge and development. Working possibilities

It's about People

The heart of our business is the passenger that uses our service and our employees that make the journey enjoyable

Environmentally conscious

Our activities create less pollution, less noise and gives more space in congested city areas

New ideas all the way

We are leaders of development – not followers!
